DETAILED ACTION

Status of Claims

1. This action is responsive to the amendment filed on December 14, 2004. No claims were amended, added or cancelled. Claims 1-20 are pending.

Allowable Subject Matter

2. Claims 1-20 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or define neither singly or in combination the claimed invention of a network device caching HTTP data transported within an IP datagram over a socks connection. The datagram is determined to be originating from a socks client or a socks server. If the datagram originates from a socks client then it is identified in a socks connection table, and a local cache is checked for the requested data. The subject matter of the claims are patentable over the prior art made of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
